Income Tax rates

Main rates	Tax year 2023 to 2024	Tax year 2024 to 2025
Basic rate	20%	20%
Higher rate	40%	40%
Additional rate	45%	45%

These figures apply to non-savings non-dividend income, including income from employment, property, or pensions. From 2017 to 2018, the main rates were separated into the main rates, the savings rates and the default rates.

Savings rates

Savings rates	Tax year 2023 to 2024	Tax year 2024 to 2025
Starting rate for savings	0%	0%
Savings basic rate	20%	20%

Savings rates	Tax year 2023 to 2024	Tax year 2024 to 2025
Savings higher rate	40%	40%
Savings additional rate	45%	45%

These figures apply to savings income.

Dividend rates	Tax year 2023 to 2024	Tax year 2024 to 2025
Dividend ordinary rate — for dividends otherwise taxable at the basic rate	8.75%	8.75%
Dividend upper rate — for dividends otherwise taxable at the higher rate	33.75%	33.75%
Dividend additional rate — for dividends otherwise taxable at the additional rate	39.35%	39.35%

These figures apply to dividend income received above the £1,000 tax-free dividend allowance in the 2023 to 2024 tax year and dividend income received above £500 in the 2024 to 2025 tax year.

Default rates	Tax year 2023 to 2024	Tax year 2024 to 2025
Default basic rate	20%	20%
Default higher rate	40%	40%
Default additional rate	45%	45%

These figures apply to non-savings and non-dividend income of any taxpayer that is not subject to either the main rates or the Scottish rates of Income Tax.

Income Tax allowances

Personal Allowance

	Tax year 2023 to 2024	Tax year 2024 to 2025
Personal allowance	£12,570	£12,570
Income limit for Personal Allowance	£100,000	£100,000
Income limit for Married Couple's Allowance	£34,600	£37,000

The Personal Allowance reduces where the income is above £100,000 — by £1 for every £2 of income above the £100,000 limit. This reduction applies irrespective of date of birth.

The income limit for Married Couple's Allowance is an age-related allowance. It is reduced by £1 for every £2 of income over this limit.

Marriage Allowance

	Tax year 2023 to 2024	Tax year 2024 to 2025
Marriage Allowance	£1,260	£1,260

This transferable allowance is available to married couples and civil partners who are not in receipt of Married Couple's Allowance. A spouse or civil partner who is not liable to Income Tax, or not liable at the higher or additional rates, can transfer this amount of their unused personal allowance to their spouse or civil partner. The recipient must not be liable to Income Tax at the higher or additional rates.

Married Couple's Allowance for those born before 6 April 1935

	Tax year 2023 to 2024	Tax year 2024 to 2025
Maximum amount of Married Couple's Allowance	£10,375	£11,080
Minimum amount of Married Couple's Allowance	£4,010	£4,280

The relief for this allowance is given at 10%.

For all cars, drivers must add 4% to their appropriate percentage if the car is propelled solely by diesel (up to a maximum of 37%). Cars that meet the Real Driving Emissions Step 2 (RDE2) standard are exempt from the diesel supplement. The RDE2 standard sets a maximum permitted level of car NOx emissions in real world driving situations, and it is measured through portable emissions-measuring equipment in a variety of real driving trips. Rates for fully electric cars (0 grams per km) are capped at 5%.

Rates for ultra-low emission cars (1 to 74 grams per km) are capped at 20% for the tax year 2025 to 2026. They are capped at 21% for the tax years 2026 to

2027 and 2027 to 2028. Rates for bands 75 to 170 grams per km and above will remain frozen for the 2026 to 2027 and 2027 to 2028 tax years.

Stamp Duty and Stamp Duty Reserve Tax

No Stamp Duty is charged where the certified consideration is less than £1,000.

Stamp Duty is charged on the purchase of own shares by a company under section 690 Companies Act 2006. The SH03 form is the chargeable instrument.

Where an instrument transfers either Intellectual Property (IP) or goodwill and shares, Stamp Duty is not chargeable on the consideration that relates to the IP or goodwill. A just and reasonable apportionment must be made.

Where an instrument grants a call option, and is itself a marketable security, Stamp Duty is charged at 0.5% of the consideration given for the premium.

Transfers of, and agreements to, transfer securities

	Standard Rate	Higher Rate
Stamp Duty	0.5% (rounded up to next £5)	Not applicable
Stamp Duty Reserve Tax	0.5%	Not applicable

	Standard Rate	Higher Rate
Stamp Duty Reserve Tax	Not applicable	1.5%

Rates for transfers on sale of interests in partnerships which hold shares and certain other securities

The Stamp Duty charge is capped at 0.5% of the market value of any shares held by the partnership (less any loans secured on them), multiplied by the percentage partnership interest transferred.

Bearer instruments

Transaction	Stamp Duty	Stamp Duty Reserve Tax
Transfer of bearer instrument	1.5%	0.5%
Transfer of non-UK bearer instrument by usage	0.2% of market value	Not applicable
Transfer of deposit certificate for stock of single non-UK company	0.2% of market value	Not applicable

In 2015 the Companies Act 2006 was amended to prohibit the creation of bearer shares by UK companies, and all existing bearer shares had to be cancelled or converted into registered shares.

Therefore, the charge remains only on the transfer on sale of bearer shares issued by or on behalf of non-UK companies, if the transfer occurs in the UK.

It may also apply on the transfer of certain bearer debt securities.

Stamp Duty on legacy land transactions

Where an agreement for a land transaction was entered into on or before 10 July 2003, but the instrument legally completing that contract is executed after

that date, then the transaction will be subject to Stamp Duty, not Stamp Duty Land Tax. However, if the contract was not substantially performed before 10 July 2003 and has been varied, or rights under it have been assigned or sub-sold after 10 July 2003, Stamp Duty Land Tax may apply on completion.

If an instrument was executed to complete a land transaction at the time of the original transfer (but is only now being presented to HMRC), then the rate in force at that time will apply.

For rates before 28 March 2000, see the [Stamp Taxes Manual, Appendix C, pages 324 to 334 on the National Archives website](https://webarchive.nationalarchives.gov.uk/ukgwa/20140109143644/http://www.hmrc.gov.uk/so/manual.pdf) (<https://webarchive.nationalarchives.gov.uk/ukgwa/20140109143644/http://www.hmrc.gov.uk/so/manual.pdf>).

Budget 2018 announced that new diesel vehicles registered after 1 April 2018 that do not meet the real driving emission step 2 (RDE2) standard will be charged a supplement on their first year rate to the effect of moving up by one VED band.

Alternative fuelled vehicles, including hybrids, bioethanol and liquid petroleum gas, pay a standard rate of £180 per annum, and a discounted first year rate that is £10 lower than the equivalent first year rate for diesel cars that meet the RDE2 standard and petrol cars.

Diesel, petrol and alternative fuelled cars with a list price of over £40,000 in the registration year will pay an additional rate of £410 per annum on top of the standard rate, in the second to sixth year since the first registration (known as Expensive Car Supplement (ECS)). However, electric vehicles are exempted from ECS.

Rigid goods vehicles

The band and rate payable can be calculated by using the following look-up tables.

In the tables, the letter indicates the Vehicle Excise Duty band the vehicle is in, and the number indicates the rate that is payable as part of that band (for example, B2 would refer to Vehicle Excise Duty band B, and rate 2 as determined by the weight and axle configuration of the vehicle).

For vehicles with trailers, the rate paid depends on whether the vehicle has road friendly suspension.

There are separate tables for vehicles with and without road friendly suspension.
